Help Center Hi! How can we help? Here you'll find answers to our most frequently asked questions If you can't find the answer you're looking for, feel free to contact us directly. Can animals and plants adapt to global warming? A large number of ancient mass extinction events have been strongly linked to global climate change. Because current climate change is so rapid, the way species typically adapt (eg - migration) is, in most cases, simply not be possible. Global change is simply too pervasive and occurring too rapidly. Essay Writing Service | EssayErudite.com When it comes to essay writing, an in-depth research is a big deal.
